January 18, 2010 --

OrbiTape, the body tape measure from Sequoia Fitness Products USA has been named the official body tape of MHP's Big Guns club. OrbiTape is used to measure biceps with 1 hand, easily and accurately. The body tape uses Constant Tension Technology to ensure accurate measurements. By applying a slight constant tension on the tape, it allows users to wrap the tape around any body part, leaving little room for measurement error.

OrbiTape body tape measure can be used to measure any body part - biceps, forearms, chest, waist, abs, thigh, calves. the tape goes to 60 inches, with centimeter measurements also on the tape. All you have to do is loop the tape around the body part, press the star button, let the tape constrict, and your measurement is done.

MHP chose OrbiTape because all Sequoia Fitness products meet the military standard of physical readiness. MHP develops leading sports nutrition products.

Matt Chalek, spokesperson for Sequoia Fitness, stated that, "we are proud to affiliate with such a great company like MHP. Both of our companies have personnel in the bodybuilding industry for decades giving us both a lot of complementary experience."

Orbitape is available for free while supplies last at http://maxperformance.com/mhp/myweb.php?hls=1379&parent_id=4
